MOUNAJEYASEELI J

Software Engineer

Madurai, Tamil Nadu | +91 73395 11741 | mounajeya@gmail.com | linkedin.com/in/mounajeyaseeli
Portfolio: mounajeyaseeli.vercel.app

PROFILE SUMMARY

Software Engineer with 5.5+ years of experience building accessible, scalable web products across banking, pensions, wealth management, capital-markets compliance, e-commerce and lending. Works across the stack: Angular, React and Next.js on the front end, NestJS, Prisma and PostgreSQL/MySQL on the back end, and Docker, Kubernetes, AWS and Azure for delivery. Core contributor to a JSON-driven low-code platform, with a strong focus on WCAG 2.1 accessibility, reusable component libraries and configurable workflows that cut development effort.

SKILLS

Frontend: Angular, React, Next.js, TypeScript, JavaScript, HTML5, CSS3/SCSS, Tailwind CSS, Angular Material, Material UI, Radix UI, Ionic

Backend: NestJS, Node.js, REST APIs, Prisma ORM, JWT/OAuth, Keycloak SSO, BullMQ, Socket.IO

Databases: PostgreSQL, MySQL, Redis, MinIO/S3

DevOps & Cloud: Docker, Kubernetes, Nginx, AWS, Azure Pipelines, CI/CD, Git, GitHub, Bitbucket

Platforms: Low-code / JSON-driven forms and journeys, workflow engines (Netflix Conductor), multi-tenant architecture, RBAC/ABAC, dynamic validation

Accessibility: WCAG 2.1, W3C standards, semantic HTML, ARIA, keyboard navigation, responsive design

E-commerce: Shopify themes (Liquid), WooCommerce

Tools: Claude Code (AI-assisted development), VS Code, Postman

WORK EXPERIENCE

Software Engineer - **Fintuple**, Chennai **Apr 2024 - Present**

- **Low-code platform (Finwyze):** Core contributor to a domain-agnostic low-code platform that generates full applications from JSON configurations: multi-step journeys, forms, conditional logic, validations, approval chains and audit trails.
- **Component library and design system:** Built a reusable Angular library (dynamic forms, data tables, steppers, modals, layouts) and a central SCSS system for consistent theming and responsiveness across products.
- **Validation framework:** Built rule-based validation for PAN, Aadhaar, GSTIN, IFSC and MICR, cross-field checks, document constraints and business rules.
- **Multi-tenancy and access control:** Tenant-isolated architecture with RBAC/ABAC, maker-checker-approver flows, configurable permissions and white-labelling.
- **Integrations:** CKYC, DigiLocker, Aadhaar e-sign, CAMSPay and eNACH payments, record-keeping agencies, SMS and email gateways.

Key projects

- **Foreign Custody Onboarding - Kotak Mahindra Bank, ICICI Bank:** Onboarding for Foreign Portfolio Investors and related parties, with KYC/AML checks, document generation, maker-checker approvals, Keycloak SSO and audit reports.
  Stack: NestJS, Prisma, MySQL (AWS RDS), Netflix Conductor, Redis, Next.js, Material UI, Kubernetes

- **Nivruti - SBI Pension Funds:** National Pension System platform covering subscriber, corporate and agent onboarding, CRA registration (Protean, KFintech), payments and ledger-based contribution processing.
  Stack: NestJS, Prisma, PostgreSQL, BullMQ, Socket.IO, Next.js, Radix UI
- **Watch Tower 360:** SEBI insider-trading (PIT) compliance platform for asset management companies, with trade pre-clearance, a rule engine, live Account Aggregator trade data and automatic violation alerts.
  Stack: NestJS, PostgreSQL, BullMQ, NATS, MinIO, Next.js, Tailwind CSS
- **WealthServ 2.0 - CAMS:** Multi-tenant AIF/PMS investor onboarding with a ten-step journey from KYC to e-sign and RTA submission, built as a Turborepo monorepo.
  Stack: NestJS, PostgreSQL, Redis, NATS, Next.js, Zod, Grafana

HTML Developer - **RRD GO Creative**, Chennai **Feb 2022 - Apr 2024**

- **Shopify theme development:** Built and customised Shopify themes for e-commerce brands, from design files to live stores, managing layouts, sections and dynamic data with Liquid.
- **Accessibility development and fixes:** Implemented W3C and WCAG standards across client sites and resolved accessibility issues: semantic markup, ARIA, keyboard navigation, focus states and colour contrast.
- **Responsive UI:** Built pixel-perfect, responsive interfaces, working with designers, backend and QA teams to keep visual standards consistent.
- **Email templates and dashboards:** Created email templates that render consistently across mail clients, and worked on Angular admin dashboards with reusable components and API integrations.
- **CSS architecture:** Improved CSS structure, responsiveness and performance across projects.

Front End Developer - **Haso Technology**, Madurai **Mar 2021 - Feb 2022**

- **Client projects:** Contributed to 8+ client projects across lending, e-commerce, healthcare and e-learning using Angular, Next.js and Ionic.
- **Web applications:** Built a loan management web app with its admin module and admin dashboards in Angular, and worked on an online medicine platform (Angular, Contentful) and an e-learning app (Next.js).
- **Integrations and maintenance:** Integrated REST APIs, including WooCommerce, and handled bug fixes, enhancements and performance improvements.

PERSONAL PROJECT

Daybook: Full-stack daily health log for food, activity, sleep, medicines and body measurements, with a diet plan, nutrition totals and secure sign-in. Used daily.
Stack: NestJS, Prisma, PostgreSQL (Neon), JWT, Next.js, TanStack Query, Tailwind CSS, Docker, Render

EDUCATION

MBA (Online) - Vellore Institute of Technology (VIT) **Pursuing**

BE, Computer Science & Engineering - UCEN, Anna University, Nagercoil **2017 - 2021**
CGPA 7.5. Vice President of the department association; Captain of the college sports committee.

LANGUAGES

English, Tamil
